

MARIE CURIE CAREER FIT PLUS

Call opens
7 Sept
2020

If you have a research idea in the area of food and health, we want to hear from you!

Enterprise Ireland's **Marie Curie Career Fit Plus** programme is designed to inject new talent and resources in the R&D&I sector in Ireland by recruiting talented researchers from around the world through an open competition to work on market-focused collaborative projects for three years.

For more than decade, Food for Health Ireland has provided a world-class model for collaborative research to improve global health through scientific innovation in food and drink.

We have successfully placed 12 fellows on this prestigious programme in the past and are now seeking expressions of interest from Principal Investigators across Ireland to work with us on their proposals.

ELIGIBILITY

- ✓ **Companies:** any size, based in Ireland.
- ✓ **Fellows:** experienced researchers residing outside the Republic of Ireland or in Ireland for no more than 12 months in the past three years.
- ✓ **PIs:** all RPOs across Ireland.
